DETAILED ACTION

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11 and 13-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed, does not provide support for the support arms having a U-shaped configuration. See page 5, lines 7-9 of the specification.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 11, 13-15, 18, 19, 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Sharp ('066).

To the extent the claims are supported the original specification, Sharp discloses an outside rear-view mirror for a motor vehicle comprising a housing (12, 112) accommodating a mirror glass plate (18,118) and connected with a carrying device (30, 130) having two supporting arms [(32, 33),(132,133)], which have a V-shaped (see Fig. 15) or U-shaped (see Fig. 3) course from a base section (31,134) of the carrying device project into the housing, wherein free ends of the supporting arms of the into the housing, wherein each support arm penetrates an opening (20)

Art Unit: 2872

in the housing by means of a collar (the free end of elements 32,33,132,133), and the housing rests in the area of the opening on a shoulder (adjacent element 14, 114) bounding the collar, wherein the free ends of the supporting arms are connected to carrying elements (27,127) of the housing, wherein the housing is made of a plastic material (see column 3, line 62 to column 4, line 1), wherein the carrying device is made of a light metal diecasting (see column 5, line 65 to column 6, line 4), wherein the carrying device and the housing are produced separately due to the fact that the materials employed for each are different and wherein the motor vehicle is a passenger car. Note figures 1-17 along with the associated description thereof.

5. Claims 13-15, 21 and 22 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

In claims 13-15, 21 and 22, line 1, the language "Mirror assembly" should be changed to read --The mirror assembly--.

In claim 18, line 2, the language "the sports" has been changed to read --a sports--.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2872

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
